(BY THE ASSOCIATED PRESS-P.M.)
WILLIAMSTOWN, June 21.—The entire student body of Williams College, headed by President Henry Hopkins, met President Roosevelt upon his arrival here from Worcester at 6:30 tonight. The advent of the Chief Magistrate was unaccompanied by any marked demonstration, in ac-cordance with his expressed wish, and after the exchange of a few words of welcome and pleasure at his arrival between President Hopkins and Pres-ident Roosevelt the others of the executive party followed him through a long line of students to carriages and

kins's home.

The drive through the streets was made leisurely and as the rain, which had been falling heavily all day, ceased just as the President arrived, the streets were lined by townspeople,

who cheered frequently.

Upon the arrival of the party at President Hopkins's residence on the college campus the President enjoyed a quiet dinner with the family. Among a quiet dinner with the family. country, today closed its doors and Albert L. Tabor, a State bank examiner, Hampton Moore, its president, will probably be appointed permanent re-ceiver. It is the belief of the Board of Directors, as well as Receiver Tahor that all depositors will be paid in full. This, however, will be deter-

The failure of the company was the direct issue of the forgeries of the late Benjamin H. Gasaill, the banker, who, Benjamin H. Gasaill, the banker, who, it was learned yesterday, a month after his death, had raised many certificates from one to one hundred shares and borrowed money on them. In this connection, President Moore said:
"Berinning in 1898, this company loaned to Gaskill & Company, upon most excellent securities, until the aggregate of the loans reached \$155,000. Of this amount, \$70,000 was paid after Gaskill's death. That left

balance due the company of \$85 000, for which it was believed the collateral securities amounted in value to \$127,000. These securities left with the company several years ago were found upon examination yesterday to have been forged. Their actual value was a little over \$5000 making the loss to the company nearly \$80,000. This loss, added to those sustained during the brief tenure of office of President A. E. Appleyard, who was compelled to resign six months ago, and the fact that the company had certain liabilities upon its surety bonds, induced the directors to discontinue the acceptance of deposits and apply for a receiver."

of deposits and apply for a receiver."

A meeting of the finance committee of the institution was hurriedly called today and President Moore recommended the appointment of a receiver. President Moore was formerly city treasurer of Philadelphia and was later appointed Chief of the Bureau of Manufactures in the Department of Commerce and Labor. A few weeks ago, he resigned that position to take the presidency of the City Trust and Safz Deposit Company.

There is considerable discussion in Honolulu as to the political effect of the election of A. M. Brown, the Rugular Republican nominee for Sheriff, who was opposed by Gov. Carter. In some quarters it is suggested that it may possibly lead to the resignation of Gov. Carter. Several of the Republican leaders held a conference with Gov. Moody Opposed Contempt Proceedings Against Railroad Officials.

Nothing in Evidence Showing Who is Implicated in Wrong-doing.

ASHINGTON, June 21.—The President has taken occasion to express himself in most

tempt proceedings should be instituted impersonally against the corporation in the cases of both the Colorado Fu and the International Harvest Company. The latter case, the President says, is exactly on the same footing, and involves practically all the watern roads.

THE CORRESPONDENCE.

The correspondence began with a letter from Messrs. Harmon and Judson to the Attorney-General, February 28th last, in which was given a review of the testimony in the Colorado cas before the Interstate Commerce Commission, with the conclusion that view lation of the injunction had been shown. In part the letter said:

M., and other places to which such transportaother places to which such transporta-tion was interstate commerce. This was done by secret arrangements be-tween the two companies, under which the coal was apparently billed at the published rate of freight, although, in fact, the price of the coal was in-eluded. The railroad company coi-lected the amount shown by the hill-ing and paid over part of it to the fuel company as the price of the coal, mak-ing the real charge for transportation less than the published rate by just less than the published rate by

that amount.
'At the same time, the rates given and charged other shippers were the published tariff rates, without any re-duction. This plan, and the way it duction. This plan, and the way it was carried out, plainly shows it was to deceive the government and the public, and to enable the fuel company to gain a monopoly of the coal supply at the points involved by giving them a strong advantage over competitors in the actual cost for transportation. The motive for thus favoring the fuel

FOR FURTHER TESTIMONY.
The next letter of the series was advessed to the Attorney-General by lessra. Harmon and Judson, and repred to a conference which had been sid in Washington the week preceding a date, April II, and it revived their commendation of March II, that further reasons, in our letter of April representation of March II, that further reasons, in our letter of April representation of March II, that further reasons, in our letter of April II. We appreciate the very great weight to be given your conclusion, but we are such as a last for an attachment for the committed with the stimony was desirable, not a much with a view of procuring proof the violation of the injunction, as a last for an attachment for the committed dest this testimony of the injunction, as a precedent. The letter then argued that testimony taken before a master would be limited as to the contempt phase of the case, unless contempt charges were first filed and a rule to show cause were issued against the railroad company and its officers. The distinction was made that, in the contempt procedings, it would only be necessary to produce proof that the injunction had been violated proof of special shipments would have to be shown.

proof of special shipments would have to be shown.

DISAPPRIVES CONTEMPT CASE.

In a letter dated May 19, the Attornery-General disapproved of contempt proceedings, as suggested by the special counsel. The letter follows:

"Gentlemen: I have considered with the utmost care your letter of May 11. It has been submitted to the President, and considered by him. I think I ought to say to you that, in thus transmitting your letter to the President, and considered by him. I think I asid in this letter. I have not, however, as yet been able to overcome my repugnance to proceeding individually against the officers of the railroad company who are in contempt of the injunction without some evidence with respect to every individual proceeding asinst that he had some culpable connection with the contempt of court." In passing upon your recommendations. I have not been unmindful of the great weight which is added to them by your personal and professional standing. Nor have I forgotten that you were invited to exercise the broadest discretion as to persons, as well as to copprations, in dealing with those committed to you by this department. Nevertheless, I cannot escape my responsibility by substituting the discretion of others for my own. If proceedings are taken against the corporations or individuals, they must be taken in my name, and what is infinitely more important, with the authority that belongs to the office which for the time being I hold. I fam therefore brought face to face with my own personal responsibility and must discharge it under the embarrassing circumstances that one of the persons affected by my direction is a colleague in the performance of public duty. It is not easy to determine with accuracy what effect such a commission has upon the exercise of judgment. I can only say that I have endeavored to see that it should have no effect, one way or the other.

"The advice that you give is that an ancilication should be made for con-

tempt of injunction against the railroad company and its managing offinew of either company. No papers
had been submitted by the Fuel
Company, and consequently no immunity could be claimed for it. Certain papers had been submitted by the
railroad company, but only such as
are by law made public, consequently
no immunity claim would stand therehy. Messra. Harmon and Judson proceeded to recommend that the railroad
company and its principal officers,
perhaps including some subordinate
officers and agents, be arraigned for

is replying to this letter, March 8th,
Attorney-General Moody expressed

the statement that, upon us completion, he would conier with the counsel
regarding the action to be taken.
Three days later, the special counsel,
replying to the letter of the AttorneyGeneral, said:

"We both understand our report to

against the Atchison, Topeka and
Banta Pé Railroad Company, at Kanssa
City, without waiting the result of future lavestigations with reference to

The letter concluded with a ruggetion that an order issue for the taking of further testimony before an examiner in Kanssa City.

a state of facts that any individuals would be liable to punishment for contempt, each of the contempt of court. I do not understand, however, that with such evidence you would be of opinion that any officer or agent would be liable to the penalty for contempt.

"After great consideration, I am of opinion that some evidence ought to precede the accusation, and that an accusation so grave in its character ought not to be made unless there appears before it is made some evidence in support of it. I realize fully that I have the power to make the accusation, and no one can question it. The possession of the power carries with it, however, the responsibility for its scrupulous exercise. In this case, upon the facts which I have stated, I have reached the conclusion that I ought not to make the application for an attachment for contempt against the officers of the railway company. I have felt that it was due to you that you should receive an exact statement of the views which I entertain and the reasons which have controlled my decision.

The resignations were accepted by the Attorney-General in a letter to the counsel dated June 12. In this letter, Mr. Moody says: ACCETS RESIGNATIONS.

"I regret your conclusion, but not doubting that you have arrived at it after great consideration, inspired by a sense of your duty. I must accept it.
"I was impressed with the fact that the investigation of the subject made by the Interstate Commerce Commission, while doubtless adequate for its purposes, was insufficient for the purposes of the Department of Justice. To what extent shipments of coal made under the rates published were subpurposes, was insumcient for the purposes of the Department of Justice. To what extent shipments of coal made under the rates published were subject to the control of the Federal government and within the provisions of the Interstate Commerce law was not made at all clear by the report of the commission. Moreover, having special reference to the restraining order of the Circuit Court of Missouri, that report leaves it quite uncertain what, if any, of such transportation was between the States, the restraining order being by its terms directed against the transportation between the States. Still further, the report of the commission and the testimony taken before it are slient as to individual responsibility or culpability, dealing, as you say, with 'facts that show that the law has been violated without attempting to fix responsibilities on any particular officers of the railroad companies."

ticular officers of the railroad com-panies.

"I had hoped that you would find it practicable to elicit further and more specific information, at least in the re-spects above mentioned, before deter-mining on the character of the pro-ceedings to be taken for the vindica-tion of the law. I have believed that this information should precede action, and that action should be based on it rather than on inferences to be drawn from the commission's report or the rather than on inferences to be drawn from the commission's report or the presumed responsibility of the officers of a corporation for its acts.

"I fully appreciate the weight of the reasons which, though they have not convinced me, have led you to a contrary conclusion. In accepting your resignation, permit me to assure you of my high personal regard. Very respectfully,

[Signed] "W. H. MOODY. "Attorney-General."

"Washington, June 12, 1905.

"I have received and carefully considered your letters of the 21st ultimo and 3d inst. I entirely agree with your conclusions. In my opinion, you would be wholly without justification in proceeding individually against the officers of the Atchison, Topeka and Santa Fe Railroad for contempt, when neither the Interstate Commerce Commission nor the special counsel you have employed have developed a single fact of any kind beyond the holdings of their officers tending to implicate any one of these officers. One of the officers, Mr. Morion, is a member of my Cabluet. This fact is not, to be allowed to shield him, nor on the other hand, is it to be allowed to cause him to be singled out, or the officers with whom he is associated to be singled out for attack.

"At about the same time that the injunction was obtained against the Atchison, Topeka and Santa Fe, an injunction was obtained against everal other western railroads. Subsequently, it was developed by the Interstate Commerce Commission that, under the guise of a division of rates, uniawful rebates were given by these railroads to the International Harvester Company, Just as a rebate was given by the Atchison, Topeka and Santa Fe in the case of the Colorado Fuel Company. The two cases stand precisely on a par. No one has suggested, and us far as I am aware, no one has thought of suggesting that we should proced individually against the officers of the roade engaged in this International Harvester Company affair, yet the case is exactly parallel to the latchison case, and if such action as you have refused to take

NOT IN BUSINESS THERE.

(BI THE ASSOCIATED PRISS-AM.)

SEATTLE (Wash.) June 21.—Clarkson & Co., reported to have been ordered to leave Port Arthur, have not been in husiness there for more than a year. Clarkson himself is a former resident of Portland, Or., and his firm, prior to the outbreak of the war, was the heaviest importer of flour in Port Arthur. The company was the representative of the Boston Steamship Company of Seattle and did most of the business at Viadivostok and Port Arthur for the flour mills of Seattle. Clarkson & Co., before and since the war began, have been selling supplies to the Russian army. About the time the siege of Port Arthur began, Clarkson removed to Vladivostok and has been there for more than a year. His Port Arthur house in the meantime has been closed.

[BY THE ASSOCIATED PRESS-A.M.]

BOSTON, June 21.-The Massachusetts Supreme Court banded down a decision today, force all laborers to combine in unions, is against the policy of the law, because it acts as a monopoly of the labor market.

CHICAGO, June 21.-A settlement of the teamsters' strike by mediation to night appears to be as remote as it did a month ago. The committee appointed by the teamsters' joint council, with full power to act, called on J. V. Farfull power to act, called on J. V. Far-well, representative of the Employers' Association, today, and requested that the employers grant the committee a conference in an attempt to settle the strike. Farwell informed the labor men that there was only one way to settle the grouble, and that was for the strik-to accept the terms offered by the apployers a week ago. The committee requested Farwell to give them ustil tomorrow morning to consider the matter.

The first strike disorder in some time occurred today when thirty wagons belonging to the American Express Company were blocked by teamsters at Van Buren and Clinton streets. A Deputy Sheriff on one of the wagons took the reins and succeeded with difficulty in driving a block north, but here the crowd had grown so dense and threatening that the officer was compelled to draw his revolver. This held the mob at bay until the arrival of a squad of police, which dispersed the crowd.

PRESSMEN WANT SUPPORT.

COMING SAN PRANCISCO FIGHT. (BY THE ASSOCIATED PRESS-P.M.) SAN PRANCISCO, June 21.—A res lution that may foreshadow serious labor troubles in San Francisco came up
today at the afternoon session of the
International Printing Pressmen and
Assistants' Union convention. Local
unions petitioned the convention for
support in a coming fight with employers over the attempt to return to
the nine-hour working day, and presented a resolution, which they asked
to have adopted. The Executive Board
was asked to remain in the city after
the close of the convention to inquire
into the question. The convention will
take action on the matter before final
adjournment.

een made public through the indict-cent returned against the aged Sena-m. Atterney A. S. Bennett, counsel or the defendant, denied the allega-cons of the prosecution, claiming that enator Mitchell was guiltless in in-ment and that the only mistake the enator had made was in changing the greement which had existed between inself and his law partner, Judge anner. FIGURES FINAL ACT

Judge Tanner will complete his evidence tomorrow.

In addition to the oral testimony, Mr. Heney is introducing a mass of documentary evidence. This includes the alleged agreement entered into between Mitchell and Tanner and Kribs by which, it is alleged, they were to expedite claims held by the latter. He is also producing checks, account books, letters and testimony in support of the indictment.

Judge Bennett and Senator Thurston, on the other hand, have pleaded the honorable career of their client, have held out the fact that tomorrow he is to pass his seventieth birthday, have entered objections to the introduction of testimony and made a desperate and spectacular attempt to block the introduction of fudge Tanner's testimony.

A. Kribs was called by the prosecution as its first witness. He told of his agreement made with Mitchell and Tanner by which he was to pay for the expediting of forty claims of timber A. Kribs was called by the prosecution as its first witness. He told of his agreement made with Mitchell and Tamer by which he was to pay for the expediting of forty claims of timber land. He also identified a check for 3000 paid to Mitchell and Tanner for the service done in passing the claims to patent. Kribs said he agreed to pay \$1500 for the service, \$500 down and \$560 when the claims were passed to patent. He had had no personal agreement with Mitchell as to the fees, but had arranged that part of the business with Tanner.

Judge Tanner testified that he had entered into partnership with Mitchell in 1891, which partnership had continued until the receet trouble, and that throughout that time the relations had been cordial between them. There was another agreement of March 5, 1901.

Tanner testified that Senator Mitchell had been in the city and that he (Tanner) had introduced Kribs to him at the office when Kribs had asked him to get the status of the claims, and used his influence in passing them which the Senator had promised to do and which he did do.

The witness identified the day book of the firm showing the entry relating to the Kribs agreement and written in the handwriting of Harry C. Robertson, Mitchell's private secretary, which had noted that the payment was to be \$500 down and \$500 after the service had been completed. He then identified the check for \$500 paid as a retainer, previously identified by Kribs.

applause.

A. M. Crawford, Attorney-General of Oregon, in the absence of Gov. Chamberiain, fittingly welcomed the yisitors to Oregon, as did Col. James Jackson, U.S.A., retired, in behalf of the commercial interests of Portland.

William D. Wheelwright, for the Chamber of Commerce, of which he is president, welcomed the visiting delegates and eulogized the great work to be accomplished by them.

The felicitations were concluded by President G. W. Allen of the Board of Trade and R. J. Holmes, president of the Manufacturers' Association of the Pacific Northwest.

President Moore then addressed the convention, as its official head. He reviewed the work of the association during the time of his official connection with R and dwelt upon the amount of work accomplished. He pictured the crussed of the good-roads train on its pligrimage across the continent and told of the good-work that had been done in that way. He advocated support of the Brownslow-Latimer bill, now before the national House of Representatives, which will provide a fund of \$34,000,000 for the development of good roads, predicting that nothing can arise to curb its ultimate triumph as an industrial necessity.

President Moore was followed by A. S. Mann of Florida, vice-president of the association, Following his speech.

Col. R. W. Richardson, secretary of the association, submitted his annual report.

SEATTLE (Wash.) June 21.—Earl W. Lovejoy, a Northern Pacific switchman, and Miss Loretta Stark, his step-daughter, were killed in a wreck on the Northern Pacific Railroad last night three miles south of this city. C. S. Hagerman, night foreman of the Georgetown yards, was bruised about the head and chest.

Lovejoy and Miss Stark, who had been allowed to ride in the engine, were seased on the fireman's seat, and when the engine toppied over were unable to get out and were pinioned beneath the boiler. A wrecking crew was hurried to the scene of the accident and it took the men an hour and a half to extricate the bodies of Lovejoy and Miss Stark. When found they were locked in each other's embrace.

WASHINGTON. June 21 .- [Exclusive spatch.] An important investigation being carried on by the reclamation is being carried on by the reclamation service to determine the best method of reclaiming alkali lands under the Truckee-Carson project. The plan entails the installing of ten acres of alkali lands typical in texture of the general farm lands now being entered by farmers, with under drains for the purpose of leaching out the alkali and the preparation of another ten acres of land for flooding copiously with water, without under drains being previously laid. The lands selected are typical farm lands met with in not only this, but in other projects, and are threatened with alkali accumulation. The data collected will be of value to farming interests, in that results will demonstrat; the best process for handling farm lands which are too saity for profitable cultivation. Drainage conditions are also being studied in connection with the Klamath, Minidoka and Huntley projects.

WINDSOR (Vt.) June 21.—A letter containing poison and making an offer of \$2000 if the substance were given to Mrs. Mary A. Rogers, who is to be hanged here Friday for the murder of her hurband, was received by Superintendent Lowell of the State Prison today. The letter was turned over to the Federal authorities.

The letter, which bore no signature, was mailed at Boston yesterday, according to the postmark on the envelope. It says the writer wished "to save the State of Vermont and all

ter Lobb shot himself. Officer chings leaped through the window, cked the door and called in the

mulocked the door and called in the rest of the police. The room presents a sickening sight. The headless body lay on the floor with the sinoking grun still beside it, and a pistol stuck in its belt. There was not a square foot of the floor, walls or ceiling which was not spattered with blood. Pieces of splintered skull ay all about the carpet.

Lobb had thrown out most of the furniture and broken chairs lay upon the sidewaik. The dresser had been drawn across the northwest corner and the bed swung around so that its headboard faced the door. Over the headboard faced the body the police. Loaded and unloaded shells, both for revolver and the sun, were heaped beside the body. The sun the head of the sun and two for the revolver were found. In addition to this, there were two empty shells in the revolver, a Smith & Wesson i2-caliber, and the empty charge in the back of his head the police say she declared that her husband came home late, started a quarrel and threatened to kill her. In a scuffle over a revolver which he had she said, he was shot.

How the bullet bappened to strike the husband came home late, started a quarrel and threatened to kill her. In IDENTIFIED BY UNION CARD.

IDENTIFIED BY UNION CARD.

The identification of the dead man was effected by a union book found in his inside vest peoket. This showed him to be Thomas Lobb, a member of the San Diego Caroenters' Union.

A baggage transfer ticket found in his pocket led to the information that Lobb left Benson, Ariz, Saturday afternoon at 5:40 p.m. and arrived in San Prancisco at 9:10 pesterday morning. He had with him a carpenter's chest. He did not register at the United States Hotel until between 8 and 9 o'clock last night, and then he came in, carrying his shotgun in a case and a revolver in his open hand, though he attempted to hide it behind a package of strawberry tarts which he rought with him. He registered his win name and was given a front room, which he paid for. He acted so strangery when being shown to his room that me of the betel clerks remarked that he must be insane.

This peerless strip of sand was the last to be plotted on the OCEAN PARK beach front. It was placed on the market without an announcement or advertisement of any kind last Monday. But the local public got wind of the deal and showed their discrimination and appreciation by purchasing over

A Quarter of a Million Dollars Worth of Lots in Less Than Seven Hours

Everyone familiar with the

Ocean Park beach knows the advantages

Silver Strand

has over every other stretch of sand along the bay. The property fronts on a lagoon of great nat-ural beauty, in some places over 200 feet wide, and which affords splendid facilities for bathing and boating along its many miles of picturesque shore. One has but to cross the lagoon bridges to get a dip in the ocean.

The lots are on high sand-mesa, and command a fine view of mountains as well as of the ocean.

Improvements amounting to not less than \$30,000

are guaranteed. They will include

Handsome Bridges over the lagoon, an Excellent Sewer System and Water Supply, Electric Lights, a highly im-

proved speedway and many other comforts and The lots on the side streets have afrontage of 35 feet. On the lagoon the lots have a frontage of 38 1-3 and 40 feet.

There is a building restriction of \$2000 on the side streets and \$8000 on the lagoon.

We still have some choice lots left, but the supply is limited and the demand great.

The prices of lots range from \$1050 to \$8000, and require one-third cash to handle, with the remainder on easy terms.

There are no free excursions to the property, but we will gladly give you all information regarding it. It's up to you. Don't delay.

Knights of Columbus Give Their Grand Knight a Royal Farewell on His

Departure for Europe.

A general jolification and reunion in honor of the successful outcome of the Supreme Council meeting was held Tuesday evening by the Los Angeles Council, Knights of Columbus. This was also planned as a farewell reception to the Grand Koight, W. E. Hampton, who with his wife, will leave this evening, by way of the Santa Fe, for a visit to eastern points, after which they will sail for Europe.

A lively programme was rendered, in charge of the lecturer, Henry Daly, and a feature of the evening was the presentation to Grand Knight Hampton of a handsome dressing case, within which was a full equipment of traveling necessities. This was presented by the members of the Executive Committee for the entertainment of the Supreme Council, and was in recognition of Mr. Hampton's active work.

Mr. and Mrs. Hampton will go to Niagara Falls, where they will join Mr. and Mrs. James C. Kays, who are now in the East, and together this party will make the tour of Europe. Their plans are to meet Blahop Conaty at Rome in the autumn, as he will then be in Rome to make his ad limina visit. They will be absent from Los Angeles six months.

THECITY IN BRIEF

R. P. Chapman, a wealthy real estate man of Hartford, Ct., thinks that the East can learn something from the West in the way of running beach resorts. He is heavily interested in a beach near New Haven, Ct. Since his strival in Los Angeleshehas been making trips to the beaches around, seeing how things are done down in Southern California. He is registered at the Angeles.

Reception to New Members.

The guild hall of St. Paul's Procathedral was filled yesterday evening with the young people of the church and their friends gathered for the reception tendered the confirmation blass by Dean and Mrs. J. J. Wilkins. The Daughters of the King assisted a receiving. The hall was tastefully scorated and the affair was enjoyable. A musical and literary programme was given and refreshments are served. ents to Aborigines.

Two ".quor to Indians" cases came up in the Federal courts yesterday. The first one was that of Miguel Gontales, who was found guilty of plying an illicit trade in firewater. He was sentenced to pay a fine of \$100, and to remain in the Riverside County Jail until full payment. Egonio Lieras, another Mexican, indicted by the grand lury for the same offense, was arrested, and is now lodged in the local County Jail, awaiting trial.

County Jail, awaiting trial.

Where's Shiras?

The police are still searching for Frank Shiras, the aged man, who disappeared from his home at No. 850 fouth Olive street, Tuesday morning when he left saying he intended to visit the grave of his wife in Rossdale Cemetery. Yesterday friends of the missing man telephoned the detectives asying they suppected the old man was on a protracted spree as he is known to be bibulously inclined, but so far as is known by the police. Shiras has not been seen recently by any of his acquaintances.

Etiquette for burglars has again ome around to the fashion of entering souses and robbing the occupants while hey sleep. Whespfore you are liable by wake up and find someone going brough your room. L. E. Pixley, No. 11645 South San Pedro street, reported to the police yesterday that a thief entered his room and took silver colmrom under his pillow. He woke but only caught sight of a man's figure disappearing in the darkness. Frits Hildebrandt, No. 416 Wall street, lost a silver watch and a knife in practically the same way.

Bankas Exterminated. Snakes Exterminated.

Snakes Exterminated.

E. B. Rice, animal keeper at Eastlake Park, killed all the rattlesnakes belonging to the park soo yesterday. As a reason for this annihilation Rice gives the unstable condition of the cage, and the close proximity of the big cactus beds. The keeper says that if the reptiles ever made an escape, they would go at once into the cactus patch, and become a source of great danger and annoyance to the keepers and the visitors. To build a new snake house is impossible at the present time. Four fine skin specimens were saved, the chief being that of the monster that killed Rabe, its skin being over 5 feet 6 inches in length, and very broad.

After Constable Cline.

In a closed session yesterday aftermoon the board of directors of the Chamber of Commerce appointed Directors Story, Mueller and Johnson a committee to investigate "particulars of the assault upon a business man in his office by a local peace officer," as the resolution reads. Needless to say, this "peace officer" is Constable Cline, who brutally pounded up Manager Dawson of Hoegee's last Friday. Mr. Dawson's physician stated last night that his patient was recovering, and will be able to resume his business duties within a few days. Among other matters acted upon, it was decided to have the Exposition Committee take up with the Mayor the proper celebration of Los Angeles Day at Portland, July 29. Unanimous resolutions were adopted inviting the Christian Endeavorers to hold their next convention in Los Angeles.

Explosion in Provident Loan Association Affairs

Secretary's Acts Said to Have Been Irregular.

Says Investigation Will Show That He is Right.

Charges of a sensational nature have been made in connection with the af-fairs of the Provident Building and Loan Association and of the Pidelity Savings and Loan Association, which have joint offices at No. 125 South Broadway. George H. Wadleigh, one of the organ-

George H. Wadleigh, one of the organisers, and for ten years secretary and manager of the Provident, who has filled the same offices with the Fidelity for several years, has been removed from office and his successor has been appointed. He still is a director of both associations.

A Pinkerton detective has been installed at the office of the associations, and the new secretary, a man named Cook from San Francisco, is engaged in experting the books.

O. B. Carter, attorney for both associations, has been removed, and Hahn and Hahn of Pasadena have been appointed to succeed him.

The State Board of Building and Loan Commissioners has been notified of the difficulties that exist, and Secretary Field of that body is expected in Los Angeles today to make an investigation. A majority of the board of directors of the two associations, practically the same in each case, adopted resolutions at a meeting Monday to the effect that Secretary and Manager Wadleigh had been profiting at the expense of the associations, and recommended that necessary steps be taken to secure the return of any funds that may be found to have been used in the manner charged. Mr. Wadleigh was ordered removed

in that body, admitted hast night that the law firm of which he is a member, had been engaged as counsel for the two associations.

"There is no charge of a shortage no suspician of one," he said.

"There is no occasion for alarm on the part of the stockholders. The assets of the two associations are about 1,35,000, and they are perfectly sound."

WADLEIGHTS STATEMENT.

In the face of what has been said by Mr. Boynton and Senator Hahn, Mr. Wadleigh announces positively in a statement prepared by him that his integrity has been questioned.

There has been a fuss," says Mr. Wadleigh, in his statement. "Charges have been made that affect the integrity of the secretary, and he has been summerstly discharged, and his successor is installed.

"The combined assets of the two association is about \$1,500,000, and they are in excellent condition.

"It is very desirable that no alarming reports be apread, for great damage might result thereby not only to those directly concerned, but to all kindred associations.

"The State commissioners are expected to begin a special examination tomorrow, and the public should await the result of this inquiry.

"The secretary will be entirely cleared of suspicion when the end has come."

STATE BOARD'S LOOK.

D. W. Field of this city, member of the State Board of Building and Loan

D. W. Field of this city, member of the State Board of Building and Loan Commissioners, admitted last night that the matter bad been called to the attention of the commissioners. He referred inquirers to Senator Hahn, Mr. Field declined to say what action had been taken by the commissioners. He said that Secretary Field, so far as he knew, was in San Francisco. The man with the gavel adopts the style of the auctioner and a small crowd gathers in the rear of the little tumble-down building at No. 114 South Broadway, where President MacDermott, Secretary Kirby and the other member of the Los Angeles Miners' Stock Exchange are wont to gather each morning at II o'clock and do a land-office business in mining stocks-on paper.

There may be other members of the exchange, but MacDermott, Kirby and a meek-eyed man interlocked space and feast its eyes at close gange upon the black-board where all of these wonderful transactions have been duly recorded by Marker Fry. who sometimes alternates with Stevens in the capacity of caller.

a meek-eyed man wearing principally a troubled look, are usually the only ones in evidence.

MacDermott glances at a paper, roars at Caller Stevens and glares at Kirby. Then Kirby mumbles something in reply and the great session in which thousands of shares of mining stocks change hands—on paper—is on.

With the reckless abandon of an expert who knows all about the riches of the "mines" on the list, MacDermott bids frantically as if he wants to purchase the entire capital stock of the company. Kirby remains quiet a few moments until MacDermott has pawed the air and convinced even the caller that he's just aching to invest all of his own and tens of thousands of dollars of his clients' money in mining stocks, when Kirby quickly hands him a bunch of nice certificates of the handsome gold-embossed type.

That is, in imagination Kirby hands them over, and MacDermott howls deliriously for more.

NOW THE OTHER BUYER.

Then the caller goes on to another stock and the tables are turned. Kirby simply weeps because he can't get enough shares after "Mac" has simply wishered him with certificates. Kirby's voracious appetite is not appeased until he has purchased something like half of the capital stock of the company.

Periodically the meek-eyed man timuldly makes a bid or an offer, but usually he is ignored. At times, however, Kirby and "Mac" turn on him like tigers and literally bury him with stock. Than the interioner retires to

months ago it nearly died aborning, when Edward MacDermott, who was a among the first to agitate the exchange business in Los Angeles, pulled out when the organization was in progress, and moved all available assets of the concern to Broadway, where he organized the institution in which he and Kirby do it all.

The other exchange struggled along without MacDermott, however, and finally fitted out their present quarters. W. T. Goodhue is president and Charles Berry, formerly caller on the old Board of Trade in Colorado Springs during the boom days of Crippie Creek mining stocks, is the caller and secretary.

The exchange boasts a membership of over half a hundred, and a dosen or more brokers are active on the floor each morning when the call is in progress.

Peculiar transactions are noticeable on this exchange also, though the charges of washing are not so freely made, nor is the system glaringly apparent to the public. Optimism, a characteristic of all mining men, is in the air, and dominates the brokers to such extent that trades are made that appear absolutely indicrous.

As an instance, "Lige Harris" and "Mount Vernon" are two of the most active stocks on the board. The Lige Harris company was recently incorporated under the laws of the State of Arizona with a capitalization of 1,000,000 shares. Miss Jones was promoted to the position of a librarian from that of second assistant to the librarian several years ago. Mr. Lummis, her successor, is a well-known writer, recognized as one of the leaders in American literature. It is possible that Miss Jones will appeal to the courts to protect her from dismissal without the formality of a public hearing of the charges preferred against her.

Mayor McAleer says that the action of the library board is not an administration movement. He appointed but one member of the board, and has declined to take any part in library politics other than to experse his approval of Mr. Lummis as Miss Jones's successor.

Beneath a smooth exterior the warfare between the librarian and four
members of the board has been in progress for several days.

It came to the surface with startling
suddenness hate yesterday afternoon
when Isidore Dockweller emerged,
flushed but smiling, from an executive
session of the board, and invited the
reporters at the City Hall to attend a
display of fireworks at the evening session of the board.

Director Rodman looked decidedly
belligerent. President Trueworthy displayed a nervous eagerness to get it all
over with, a marked contrast to his
customary urbane demeanor.

The viotim of the executive session
appeared little peturbed. With a
charmingly deflant toss of her head she
said that the president of the board
a week ago begged her to resign, promising her a "character" and offering almost offensive adulation—if she would
only step down and make way for a
man.

"Those directors seem as crasy after

had by a rather hard experience learned to discriminate between the exterior appearance of a man and his inner qualities.

It was not very long before the intimacy that had been resumed glowed in an ardent affection—and this time on both sides. Mrs. Ragle consented to marry McLaughin, though he was only a laboring man, and both began making prepartions for the marriage on May 16.

Those were happy days. The Eagle children, two little girls and a hoy-climbed over Kelly's knees and he romped and frolicked with them and won their affection as if he had been their father. Suddenly the mother was taken ill at the little home on Echo Park road, and before very many days had passed, she died. On June 1, she passed away and again McLaughlin was disconsolate.

During that dark period while he was himself overcome with grief at seeing his hope of happiness dashed aside for the second time, he put aside his own trouble for the sake of the children. In heart and affection he regarded them as his own—for they were the children of the woman he had loved and had hoped to make his own. McLaughlin is neither a drinking nor a loose living man and he has saved his money. He petitioned the court that he be appointed the legal guardian of the children, and yesterday the three little ones appeared in court and by their familiar manner and playfulness clearly showed the affection with which they regarded McLaughlin.

Me: who had known the man for thirteen years in Colorado Springs testified to his good character, his steady habits, and his general reputation as a good man and citizen, and then without hesitation Judge York appointed him guardian of the children with a bond set merely at 1100. The proporty involved is inconsiderable.

*And now McLaughlin is setting up house as a widower with three chill-dren, without ever having been married.

WOODRUFF ACQUITTED.

After having been out ten hours, the jury in the case against E. Woodruff returned a verdict of acquittal shortly after 16 o'clock last night and the defendant was discharged. Woodruff's home is in Covina. On complaint of a neighbor, he was arrested, charged with having assaulted his sister-in-law, who is under sixteen years of age. He made a vigorous defense, strenuously denied his guilt and succeeded in creating in the minds of the jury a reasonable doubt. White & Thompson were his attorneys.

Mrs. Coe said that she and Patterson both claimed ownership of a house on Henry street near Arroyo Seco. She declares that Patterson got the house by a tricky ruse and then claimed to be the proprietor, renting it out to a teanant.

Mrs. Louise Lawrence, superintendent of narcotics, spoke of the plans being pushed to secure a State anticigarette law. She reviewed the work of Dr. Lawrence and herself during the past year in connection with the "Souvent: Piedge." Five thousand copies of the book have been disposed of in the counties of Ventura, Orange, Riverside, San Bernardino and Los Angeles, and upwards of 4000 boys have been induced to sign the piedge.

It is now proposed to circulate petitions asking the next State Legislature to pass a law suppressing the manufacture of cigarettes and restricting the sale of them. The federation unanimously endorsed these plans, and Dr. and hars. Lawrence will continue their campaign throughout the State with the end in view of securing a State anti-cigarette law.

During the meeting of the federation a pretty souvenir spoon was presented to Mrs. Marion T. Boyd, superintendent of jail work, in behalf of her carnest labors during the past year. The presentation speech was made by Mrs. E. P. Boller.

Bounts in Mount vernon shares.

This company owns property in Inyo county near King Smith's famous borax farm. All sorts of wild runors concerning the richness of the ore are afoot, though never a word of mint receipts is heard.

THOSE WHISPERS.

THOSE WHISPERS.

Brokers whisper confidentially to their friends, "The mill will soon be started up and you'll see that stock go to 32 a share." Meantime the shares have been boosted up to 65 dents cash or 96 cents buyer 80. This means that any shrewd trader can "scalp" \$150 on each 1000 shares of stock sold on the buyer 30 plan, if he will only wait a few days for his meney. Entirely unknown a few weeks ago this borax patch, which is said to be—only said to be, mind you, for the dividends have never actually proved it—dabulously rich in gold values, is selling on a basis of \$500,000, for the property.

People get crazy and talk millions about gold mines when they should be talking hundreds; they will always continue to do so as long as the yellow metal continues to lure; and they will continue to buy mining stocks—some of them absolutely worthless—at ridiculously high prices, because they believe the shares will go higher. But when such a vast difference exists in cash, and short time stock, and brokers cannot offer a reasonable explanation of such a condition, even those possessing the least semblance of business sagactity can readily see there is something decayed in Denmark.

Either the mine is a fake, the brokers are unreliable or the exhange is not worthy of confidence. That the public appreciates and understands conditions in regard to the two stocks mentioned, is apparent on 'change, for the trading in these shares is almost entirely professional.

Hundreds of thousands of shares of mining stock—good, bad and indifferent—are owned in Los Angeles, and millions of dollars are invested in mining properties. The awakening of the desert at the very doors of the southern metropolis offers a perfect treasure vauit, which can easily be unlocked by brains, capital and energy. — mart for the shares of the companies operating the mines is essential and shrewd mining men say Los Angeles is the place above all others where this business should be transacted. But an exchange which is backed by the conservative business men and financial interests and an institution which ranks tigh in financial circles and whose reputation is above suspicion alone can handle this business.

The volume of business carried by the Los Angeles Times is the strongest possible proof that can be offered of its popularity with that class of advertisers who want to know what they are getting for their money.

Neither exchange possesses a clearinghouse or registry system. Without the former all sorts of crooked transactions can be consummated, and without the latter millioms of shares of spurious stock can be foisted upon an unsuspecting public.

Will either of the institutions rise to the occasion?

Director Dockweller had been giving his pungent yellow pencil another tryout.

This time it was a resolution appointing Charles F. Lummis to the position of City Librarian.

Again Director Rodman objected, raising the point that the action of the board would be illegal. Again his vote was the only negative cast.

On a question of personal privilege he explained that he had voted against Mr. Lummis's appointment, not because he had any oersonal objection to the selection made, but because he considered the acts of the board ellegal. He wanted the records to show that he has a very high opinion of Mr. Lummis's literary ability.

That was all as far as the board was concerned. The city librarian had sat a silent spectator while she was being deposed and another selected in her stead. Not a word of protest. She even declined to make use of a woman's prerogative to have the last word.

Later in the evening she read a copy of the board's charges, and pronounced the most of them to be filmsy pretextsto a few she applied an even stronger term than that.

"All that I have to say in reply," said the librarian, "is that this is the first that I have heard of any of them. Never has the board criticised any of my actions as liorarian. They have not told me that they were dissatisfied with the manner in which I conducted the affairs of the library. I have had only words of commendation. I never threatened to resign if my salary were not raised. I never asked for a rise. The board offered it, and then withdrew the offer.

of adulatory resolutions if I would do so.

"I am not prepared to say what action I shall take. These charges are so unexpected that I have not had time to consider what to do about them."

By order of the board Miss Celia Gleason, assistant librarian, will be in charge of the library until Mr. Lummis takes the oath of office.

With the exception of a two week's term, during which Mr. Dockweiler was librarian, and a slightly longer term that C. D. Willard served in that capacity, the position of librarian has heretofore been filled by a woman.

Mr. Lummis said last evening that he

seek Miss Jones's place, and would no was not taking it—he was in the posi-tion of filling a vacancy. The profits tion of filling a vacancy. The proffer came as a great surprise to him, he said, and he only concluded to accept the office after making up his mind that he could be of service in upbullding the character of the library, which already has such a fine reputation, and increasing its usefulness, while at the same time laboring in behalf of other great projects for making Los Angeles a center of active scientic endeavor and a home for scientific treasure.

Mr. Lummils is a scholar of national reputation, one of the great, strongmen of the Southwest. He will enter upon his duties with fitness and enthusiasm.

One of his friends makes the finischievous suggestion that the only danger is that the "Injuns" will capture the library.

Happy Colebration of "Uncle John's" Anniversary by a Party of Guests of His Own Age.

. One of the happiest "stag" parties of "old cronies" that has come together in Los Angeles for many a day, was that Los Angeles for many a day, was that which celebrated the eighty-sixth anniversary of the birth of John Bryson, Sr., on Tuesday evening. "Uncle John," as he is familiarly known among all his friends, was made one of the guests at a diner at his own home, No. 802 South Bonnie Brae street. Invited to enjoy it with him were eight gentlemen, all near his own age, and all long-time friends and companions. They were: Dr. J. W. Trueworthy, Dr. C. C. Rogers, Dr. H. S. McDowell, H. F. Rollens, Milton K. Young, James H. Bryson, John H. Bryson and Trumbull H. C. Johnston.

They spent a delightful hour together, talking over the old times and each telling how young he felt today, after which they were entertained at a box party at the Orpheum.

We note with pleasure that a graduate of Ann Arbor, at the recent commencement exercises, announced that college men would bridge the gulf between capital and labor. The question which promises to give most trouble is the question whether

It would have cost to construct the road properly in the first place. "Surface railroads," said Mr. Shonts, "were a necessity when the country was young and would not support a high-class railroad. But the United States is rich, and can afford to build the kind of canal it ought to have. The great need of the canal is for military purposes. We don't want to have it possible for a stick of dynamite, in the hands of an irresponsible native, working in the interest of our ene-mies, to blow up the lock and put the canal out of use." This is one of the strong arguments which will probably influence Congress in deciding the question as to which form of canal shall be finally adopted. If it becomes a mere question of cost, with the superiority of the sea-level plan generally conceded by expert opinion there is not much room for doubt that Congress will decide that the waterway shall be dug straight from sea to sea, without locks or other obstructions. There will be little trouble about pro-viding the money necessary for this

work.

Speaking of tiose undesirable hordes of emigrants from Southern Europe and elsewhere, Southern California has little to fear from them. They land at size Atlantic ports and most of them stay there. But even if they should go farther they'd be caught in the sieves of other hig eastern cities long before they could get this far.

PART II: EDITORIAL, LOCAL AND BUSINESS SECTION

It is much to be hoped that the recent reports of "friction" in the Isthmian Canal Commission are without foundation; or at least, if miswill not be permitted to delay in any other, in this work, that public opinion will not be very tolerant of further for it. Without much doubt the Presi-

The fame of Los Angeles, first of all rests upon a secure foundation of solid merits and unique advantages. The peculiarly healthful, all-the-year-round climate of Los Angeles, and of Southwestern California, has probably no equal for salubrity and general enjoyableness on the globe. Every climate has some drawbacks, but Los Angeles, take it for all in all, has fewer than are found elsewhere. The world had only to be reliably informed of this supreme advantage, in order in tring hither people from less favored

admirable unison, the people of South-ern California (and particularly the prominent citizens of Los Angeles,) Let us call these methods advertising. If the reader prefers that designation. They consisted principally in letting the outside world know what sort of a land we have here in the far South-

total production was \$12,000,000 pounds, being more than one million pounds, being more than one pounds in excess of the previous year pounds in excess of the previous year and two million pounds more than for the year 1900. This enormous production is supplied principally from five States-California being the fifth, as follows: Montana, 298,000,000 pounds; Michigan, 208,000,000; Ari-zona, 191,000,000; Utah, 47,000,000; and California, 28,000,000.

The California copper comes largely from the Mountain Copper mine in three centers-United Verde, Globe nd Bisbee; that of Montana from Butte; and that of Michigan from the Lake Superior region. The largest paid by the Calumet & Hecla, \$87,350, 000; the Boston & Montans, \$29,375,-000; Amalgamated, \$25,812,127; Anaonda, \$24,450,000; United Verde, \$16,860,322; making the United Verde the fifth in total production.

But if we take the dividends paid in the year 1904, United Verde rises to the third position: Thus for Calumet & Hecla, \$4,000,000; Amalga-mated, \$3,077,720; United Verde, \$1, \$00,000; Calumet & Arizona, \$1,300,-000; and Anaconda, \$1,200,000. Thus we see that the one great Lake Superior mine still has the lead, and two of those in Montana, and two in Ariproducers, aggregating in dividends for 1904, \$11.377,720, being a monthly average of nearly \$1,000,000.

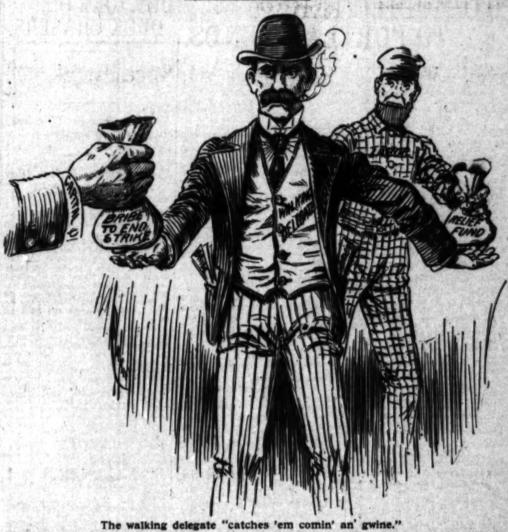

The fluctuations in the market price of copper form an interesting phase of this subject. Previous to the Civil War, when the production and consumption were comparatively very small, the price ranged around 20 cents per pound. During the war it advanced sharply, reaching a cul-minating point of 46 cents in 1864, receded to 36 cents in 1895, and later settled to 18 cents. After 1887, owing to the large production of the Lake Superior mines and the developments in Montana, the price began to fall till its history-9 cents in 1894. It then rallied to 18 cents in 1899, receding to 16, and suddenly fell to 11 cents in the financial flurry of 1901, after which, under a strong demand, at home and abroad, it advanced to 18 again. In 1904 there was a break un der Wall street manipulation to 11 cents, from which point it has slowly recovered to 15 cents, at which approximate figure it seems to have beome nearly stationary.

In view of the abundant sources of

supply and the cheapened modern methods of reducing the ores and refining the metal, it is surprising that the price of copper remains so much above the cost of production. But this is due to the enormous demand created by the extraordinary development of industries depending on the

With all his merits as a foreign Min-With all his merits as a foreign Minister, it is merely the truth to say that M. Deleasse's forced retirement from the French ministry, after eight years of distinguished service, is the direct result of the one vital weakness in his conception of the foreign policy of France. This weakness is M. Deleasse's craze for colonialism. He has ever been an earnest advocate of the establishment, extension and maintenance of a great French colonial empire, although every one who has given study brides:

Copper, next to iron, now ranks as the world's most important metal. It began to be used in the arts away back in the Bronze Age of Central and Northern Europe, some thousands of years before the Christian era. It was then alloyed with tin, giving it hardness so that the utensils and weapons constructed from it would hold their edge. It is singular that the Bronze Age flourished before iron came into general use, doubtless because copper ore was often found in metallic masses and could be more easily worked.

At the present time 55 per cent. of the world's copper is produced in the United States. In completing the tabulation of mineral statistics for 1904 it was discovered that the value of the copper product, for the first time in our history, exceeds that of gold. The

Gold fire.

Walter G. Brown and the Ellis sisters and Frye and Allen are the chief attractions.

Golder does an automaton act, in which he impersonates a figure model. His imitations of mechanism, and his control over his facial muscles are as perfect as anything seen here on a vaudeville stage. Brown and the Ellis sisters are really very clever dancers, and Frye and Allen are an entertaining singing and comedy duo, Frye possessing considerable originality of method and make-up. Teal, as one of the best relies of the older ministrel days, is very clever, and an ideal impersonator of the old black-face clown of the ministrel show.

The show concludes with a buriesque of the Bradley-Martin ball. This sketch employs the services of twenty-two actors, and as a buriesque is rather farfetched, although it has considerable costuming, several new wittleisms, and an excellent Irish character actress in the person of Miss Kitty Francis.

The Normal School "Expensent," will make its appearance next Friday and the hardworked editors and managers will breathe a sigh of relief when they behold their issue ready for circulation. For weeks the editor of the Senior A department has been searching for the fada and fallings of the different men.

PAINED CONDUCTOR.

The conductor, by name of J. L. Potter, observed this with pain and disapproval. He touched Solomon on the shoulder and told him if he must eat peanuts outside of his own boudoir, he needn't throw the hulls on the floor. He told him to sit on the dutside of the seat and huri the shells out into the night.

Solomon was indignant at this interference with his appetite. He is aleged to have suddenly thrown down half a bag full of shells into toe middle of the floor.

Almost fainting at the sight of such rudeness, the conductor told him he would have to put him out the ear; this couldn't be borne; it was almost as though he had picked his teet in public.

He rang and the car stopped, but floornon refused to get off.

A rough house of the most unmannerly variety ended in a melodramatic display of argus.

BLUFF AND A CANNON.

The poanut cater, for a bluff, is alleged to have reached around to his back pocket. To his chagrin and alarm, he found himself starling into the mustle of a giant revolver.

The gun was pressed hard against his breast, Wildly protesting that he didn't have any weapon, Solomon was ejected from the car.

Women screamed; someone hit Solomon for good measure on the shoulder with the motor controller; and scene of rioting prevailed.

Section.

Pifteen minutes before the editors called "30" on the last form of their Los Angeles edition yesterday morning, if special Pullman train of three coaches and a combination baggage car loaded to the vestibules with a Jolly party of Iowa school teachers, pulled into the Arcade depot.

There are eighty in the party, made up of teachers from all over the State of Iowa, and in charge of Z. C. Thornburg. County Superintendent of Schools, of Des Molnes. They are en route to the exposition at Portland, and have come by way of Denver, Colorado Springs and Sait Lake.

Yesterday the entire party made the trip to Catalins, and paid the usual landsman's fetching tribute to Neptune. Today they will visit Mt. Lowe and Pasadena, and Friday they will take the trip over the Kite-shaped track, and will leave in the evening for Santa Barbara, Monterey and Sai Francisco. The trip will extend over twenty-seven days, and will cover a distance of more than eight thousand miles.

The trip thus far has been a delightful one, entirely free from any marring feature to spoil the enjoyment of the outing.

business course, all who want to, receive another under Mrs. L. J. Murphy. Her pupils did credit to her
abilities as a teacher of music last
night. For one thing, they have been
taught to enunciate clearly, a feature
that many other teachers would do
well to impress on themselves. Evi-

dently they are also taught to avoid straining after effect and unnatural abuses of style.

Those who decry a too close attention to athletics would have been confounded by Rev. Frank De Witt Taimage. His address to the graduates was, for a great part, urging them to develop their bodies.

"The survival of the ditest is the greatest law of God and man," he said. "You see it in every line. And only those men who have strong frames are able to stand the strain of the work that is necessary for them to attain to great heights. Among preachers Henry Ward Beecher is an example of this: The only reason why he was able to stand the strain of working eighteen hours of the twenty-four was that he was physically a giant. So you must take care of your bodies, be strong physically, when you go out into the world."

He urged that the same law of the survival of the flitest applied mentally, also, that brains were the equipment that enabled civilised man to overcome all obstacles.

to let go the old dehominational name and enter into fellowship with the large general body of Presbyterians without a special handle to the title.

They adopted the name, "Westlake Presbyterian Church," decided to stone erect a new building on a new location, because the larger structure will require more room than can be had where it is at present. Their intention is, however, to remain as close as possible to the present location because it is considered as near as practicable to the center of the territory they mean to cover.

A committee of three was authorised appointed by the pastor, W. D. Landis, to confer with other Presbyterian churches in the city as to location and to select a suitable lot and purchase it. The following trustees were elected: R. E. Page, A. S. Vandegrift, N. B. Golden, W. H. Stevensor and F. M. Brown.

Mr. Landis was one of the most act-

But in order that there might be an abundance of flowers, it was desired that the conclave meet in May instead of June.

This gathering of Shriners will bring probably twenty-five thousand people to Los Angeles, and will be one of the most representative gatherings ever held here. It is expected that the local temple, all Mainifach, will raise fully 320,000 for the entertainment of the visitors, outside of what will be done by the citisens in the flesta and otherwise.

The transcontinental rates which the railways are sure to make for this gathering will doubtless induce many hundreds who do not belong to the order to make the trip to Los Angeles and witness La Flesta de las Flores, and this peculiar institution of the city will have advertising all over the United States.

An experience vouchsafed few women befell Mrs. Wilkinson, for, according to her own version of a little Saturday-night whirl at the café, she had a dine time, but awoke in the morning in a strange lodging-house, attired in picture hat, shoes and clothes, but minus a watch and all of her money. Mrs. Wilkinson says she visited the café Saturday night with a friend and "only drank beer and listened to the music." Somehow the lights began to dance around and then she remembered nothing until she awoke the next morning and found herself attired as she had appeared in the café. Her purse containing \$32 and a gold-filled watch were missing.

Although marked by an absence of ostentation, the wedding of Miss Susie Howard and E. Avery McCarthy, which is to take place on next Wednesday evening, June 28, at the home of the bride's parents, Mr. and Mrs. A. J. Howard of No. 156 West Twenty-fifth street, is of much interest not only to local society, but all through the length and breadth of California, Miss Howard is one of the lovellest belies of the State, being a native daughter. She is a striking brunette with bright coloring and a vivacity which has made her the object of much admiration.

Mr. McCarthy formerly lived in San Francisco, where he has a wide acquaintance, and is now established in the real estate business here. Owing to the prominence of the bride's family, which is one of the oldest in California, San Franciscans as well as Angeleños will be immensely interested. The wedding is to be a very quiet one, only the two families being present. Norwood Howard, brother of the bride, will act as best man and Miss Grace

Deputy District-Attorney Ames was called to Capistrano yesterday to investigate an alleged robbery case, in which Dolores Yorha. Manuel Yorba and G. Kamreth were charged with atealing about 140 from William German. The Yorbas and German were all intoxicated and fighting at the time the robbery is said to have taken place and Kamreth were charged with atealing about 140 from William German. The Yorbas and German had lodged against the men were dismissed.

Further hearing in the matter of the building of a new channel for the Santa Ana River, south of the Fifth street bridge, has been set for July 11. Meanwhile the proposed route will be surveyed and estimates of the cost of the Job prepared for submission to the Supervisors.

The shot came from the direction of the road several hundred feet away, but by the time Mr. Harlow reached the public highway the man with the gun had escaped. Mr. Harlow atill be-lieves the shot was accidental. FULLERTON PICKUPS.

Rev. Scott will continue as the meia representative of the State Anti-Saloon. League.

Superintendent Corum of the Workman ranch at Yorba is slowly recovering from severe injuries sustained a few days ago. He was attacked by a vicious horse, was badly bitten on the head and ribs, and was picked up by neighbors, otherwise it is believed he would have been fatally injured.

Clarence Blackford, a well-known young man here, left yesterday for a visit to the fair at Portland. He will locate in Washington and engage in farming.

STEEL BULLET-NARROW MISS.

FULLERTON, June 21.—A. H. Harjow has found the builet which was shot through his home a few nights ago. It is over an inch in length, 28 caliber and is solid steel. The builet passed through both walls of the house and plowed its way deep into a thick roll of wall paper. The family was at the supper table at 5:36 o'clock, when they heard the crash, the ugly missile just missing Mrs. Harlow's head.

West Virginia has a town named Thurmond large enough to have a Mayor who lately distinguished himself by some curious magisterial decisions. An Italian named Bartit committed suicide by jumping into the New River, which hows through the town. A reward of \$50 was offered for the recovery of his body. It was found a few days after by a river captain and a search disclosed the sum of \$130.50 in the pockets. Of this \$50 was paid to the captain as the promised reward and the rest the Mayor confiscated because its possessor had broken the law in committing suicide. His father, who had come on from Pittsburgh to claim his effects, remonstrated and the Mayor fined him \$17.—[Chicago Chronical Chicago Chronical Chron Thos.B.Clark uctioneer, 121 S. B'wy. Red 2372. crutch, and worked for Spencer Kennelly at Santa Monica. Recently he opened a little place of business for himself on Utah avenue in Santa Monica, and she worked for him. It was in the small rear room of this building that Vandercook slept. It was here that he was gagged and here it was that the arson was coismitted.

Vandercook says he has played the part of a brother with the girl.

There is, to all appearances and so far as the mother knows or the neighbors have observed, no love affair between them. It has been stated that they are cousins, but this is not true. Some folks asy the commission of the crimes was inspired through the jealousy of some person as yet unknown, but Vandercook declares he has only acted as her protector, and in so doing has incurred the displeasure of those who would have met her clandestinely by preventing any such meeting, even had the girl been so inclined. This, then, is the motive, as understood by the victim. He was promised immunity, he says, if he would leave the town or withdraw his protectorate from the girl.

Vandercook was so firm in the belief that the first crime could be fastened upon them that he swore to a complaint charging two well-known young men with the crime. They were arrested on charges of feionious assault and both now have their freedom under bond awaiting a preliminary hearing.

Spencer Kennelly, the eider, is in business in Santa Monica. He is a prominent member of the English colony, being the son of a wealthy former sea captain. His mother resides in Ocean avenue's most fassionable quarter, and today advertises a reward of 1200 for the arrest and conviction of the person or persons who committed the crimes against Vandercook. Lawton, the other one under arrest, is a mere slip of a boy. He is a son of Frank Lawton of Playa del Rey and El Monte. He and Kennelly profess never to have seen each other until they met after having been arrested. Yesterday morning when Vandercook opened his place of business he found a letter under the door. It said to him: Thi

Charles Wiggins, a Fourteen-Year-Old Son of A. W. Wiggins, While in the Water With Three Companions, Cried Loudly for Help but Dies Be-fore Aid Reaches Him.

EL MONTE, June 21.—Charles Wiggins, aged 14, a son of A. W. Wiggins, was drowned today in a swimming hole a mile and a half southeast of town.

The lad was in the water with three companions. The reservoir is fed from a nearby spring and the water is very cold. It is supposed that the temperature may have produced cramps.

The boy cried loudly for help, but he went down before assistance could reach him.

On account of the depth of the hole nearly an hour was consumed in recovering the body.

DITILESS GRIP ON KERN RIVER.

NO OUTLET FOR INDEPENDENT OIL TO MARKET.

Evidence That Crude Kings Will Reserve District for Railroad's Use. Will Agency Renew Contract? Small Mon "Between the Devil and

There is no practical outlet for in-lependent Kern River oil except

There is no practical outset for independent Kern River oil except
through the contract of the Independent Agency with the Associa. d Oil
Company. The small producers that
entered that corrolne get is cents for
their oil, the others sometimes get more
—20 or possibly 22 cents—when they can
sell at all. Generally they fall to sell
and get nothing.

All this time hundreds of cars louded with oil leave Bakersfield daily.
The oil goes in part to the Sauthern
Pacific and in part to the Sauthern
Pacific and in part to the Sauthern
elsoe market, but more goes to the
former than to the latter. Wherever
the oil goes, however, it is all being
handled by the Associated Oil Company. The independents, who stayed
out of the combine when it was organised last fall, find themselves "up
against the real thing."

The question that is beginning to be

The question that is beginning to be actively discussed is what will be done in December when the contract expires. Many profess to believe that whatever chance there may have been of friendly feeling between the Associated and the Agency was destroyed by the former's interpretation of the stor-age clause in the contract. This un-questionably caused ill feeling and was a strong factor in bringing about the defeat for reelection of President M. V. McQuigg, who negotiated the contract. He was the only officer who was not re-chosen. His successor. William Ellery, is known to be strongly opposed to con-ditions as they exist and his course will be watched with interest. The prosthe oil except the Associated are not, however, very bright at present.

WANT ABSOLUTE CONTROL.

There is every indication in the opin-ion of leading Kern oil men that the triple alliance, Standard, Espee and As-sociated, whatever their relations may be with each other, have simply de-cided to let the railroad have Kern River to itself. The oil is conceded to be the best locomotive fuel that car be had and it is needed for that purose. Natural conditions make it easy o control, as it is wholly depend

pose. Natural conditions make it easy to control, as it is wholly dependent upon railroad transportation.

That the Associated-Espee combine, now freed from all competition with the Standard. aims at absolute control of the Kera River and largely of the fuel trade, admits of no doubt. The following statement of the case was made to The Times by a man in close touch with the inside workings of the oil circle, and who is probably the best-posted man in the State on these matters outside of the highest officials themselves. He said:

"The present conditions will continue indefinitely so long as the amail producers persist in attempting to get into the market. The Associated wants control, it wants all possible freedom from competition, and it will have it, too, it is willing to pay a good price in the field if freed from competition by the small fry. Whenever all come into the combine and do business that way there will be a change, and not before."

Here is something for Mr. Garffeld's men to look into. That they have been inquiring as to the existence of a combination of this character is well-known.

WATER A BIG FACTOR. WATER A BIG FACTOR.

Were it not for the water problem a shutdown that would let the oil stay in the ground might be the solution of the whole difficulty, but with the water already appearing on section 30 in the northern part of the field—where no effect is being made to stop it—there is a strong feeling that those who have oil to sell should begin to sell soon, for although Kern River is still the largest producing field by far in the whole State, it is apparently only a question of time before the inevitable slump comes. If the wells are shut slump comes. slump comes. If the wells are down the water will still be they checked than ever, and the Ass will be using up the oil.

An Enormous Silk Sale

Prices Less Than Cost to Mills to Make

The original lot of 12,000 yards first placed on sale Monday has been reduced to almost one-half, for such values in silks are seldom offered, and by no possibility will they be duplicated in Los Angeles this season. Comprising as they do the surplus stocks of several representative mills of the newest, most seasonable silks; it is up to you to purchase a dress or waist pattern where you can save fully 50 per cent. over regular.

50c, 27-Inch Lyon's Finished Jap Silks per Yard

The same silks are advertised in other stores at such great bargains at three-shillings, but Hamburger's have better buying facilities and are in position to offer them to you less than other stores pay at wholesale. They are genuine Japanese silks, dyed and finished in Lyons, and are in colorings pink, baby blue, navy, brown, tan, resada, maize, yellow, lavender, old rose, purple and cream; full 27 inches wide.
